## **Mission Statement**

We will...

- Surpass our rivals using vision and foresight.
- Create a team proud of our quality, efficiency and innovation.
- Recognise that each and every one of our customers has a right to expect a first class, quality job. It is the responsibility of every employee to ensure that this is achieved.
- Ensure that thorough review processes are carried out efficiently and responsively, resulting in positive customer relations.
- Believe that we can achieve more working together as a team than we can when working individually.
- Try new ideas, and purchase new technology but will always maintain our strength with sufficient reserves.
- Strive to ensure that our business will return a fair profit, providing all employees with a sense of purpose and job security.

The company's intention is to continually strive for higher levels of;

- Awareness of the environment and the company's influence upon it.
- Health and safety performance.
- Quality and efficiency improvements will be achieved through a programme of internal and external audits, education and training.
- The strength of the whole workforce is the most effective way of meeting or exceeding the requirements of all of our customers, enabling us to achieve our mission.
